EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims:

In claim 1 at line 14 of the claim, delete "allotter" and insert therefor "allocator".

In claim 91 at line 3 of the claim delete "drive" and insert therefor "drives".

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach or suggest a storage device or system comprising a disk controller controlling transfer of data sent from a host, plurality of disk drives, switch coupled with the controller and the drives which select a disk drive and execute transfer from the controller to the drive, and wherein the switch detects an ID number of a destination drive sent from the controller, allocates an ID number to the drives respectively, reports the allocated ID numbers, and controls switch operation between the controller and the drives in accordance with detected ID number and reported ID number. This invention avoids performance bottlenecks that may occur between a controller and disk drives connected via different protocols by implementing a switch

that can detect an ID used in one protocol type, and allocate/report an ID used in another protocol type.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
